# STARTING THE PROCESS

Before you begin, it's important to have a few ideas that you're ready to work with. Take some time to really think about what you like, don't like, and would like to change or add to your bathroom.

Here are some questions to get you started:

- Do you like the colors, or are you ready for a lighter, fresher space?
- Is storage an issue? Would you like to add more?
- Do you like your existing layout, or are you willing to make some changes?
- Have your needs changed? Would you rather have one large luxury shower instead of an oversized tub?
- What is your budget?
